

THE AMERICAN UNIVERSITY

Expert-Led Learning from Industry Leaders

American University's Online Master's in Economics is led by a distinguished faculty with deep expertise in economic theory, policy analysis, and applied research. Their diverse academic and professional backgrounds provide students with practical insights and a well-rounded understanding of today's global economic challenges.

Evan Kraft

Economist-in-Residence Economics

Evan Kraft specializes in the economics of transition, monetary policy and banking issues. He served as Director of the Research Department and Adviser to the Governor of the Croatian National Bank. His scholarly work includes studies of soft-budget constraints and their impacts in former Yugoslavia, macroeconomic stabilization in transition countries, banking efficiency, lending booms, deposit growth and financial stability, and monetary policy under dollarization.

Ralph Sonenshine

Senior Professorial Lecturer Economics

Professor Sonenshine is a Senior Professorial Lecturer of Economics at American University. Ralph combines an academic background in industrial organization, international economics, and economic history with business consulting and industry research expertise. His research and teaching interests include antitrust, mergers and acquisitions, international trade and finance, and industry studies (e.g. electric utilities and financial services). Ralph has published.

Natalia Radchenko

Assistant Professor Economics

Natalia Radchenko earned her PhD in Economics from the University of Paris I Pantheon-Sorbonne & CREST, alongside an MA in Economics from the Centre for Economic Research and Graduate Education and an MA in Applied Mathematics from Novosibirsk State University.

Mary Eschelbach Hansen

Professor Economics

Mary Eschelbach Hansen is an expert in U.S. social policy. She is currently working on issues in disability policy. She is widely published in the fields of child policy, bankruptcy, and economic history. Her work addresses key issues in race, gender, and economic inequality. Her research has been funded by the National Science Foundation, the National Institutes of Health, the Alfred P. Sloan Foundation, and the Institute for New Economic Thinking. She has been quoted or cited by news outlets including WAMU, The Economist, Fortune, CNN, and the LA Times. She has given public testimony before the DC City Council and in Federal District Court.

Walter Park

Professor & Associate Dean of Graduate Studies, CAS Economics

Walter Park works on the economics of technology, human capital, growth, and international development. He focuses, in particular, on intellectual property systems, R&D, AI, and international knowledge transfers.

Bernhard Gunter

Assistant Professor Economics

Dr. Gunter is an international scholar in development economics. His areas of expertise include development macroeconomics, debt sustainability analysis, and the social impact of globalization. He is also interested in analyzing poverty reduction policies, macroeconomic development strategies, and the economic challenges of climate change. His current research focuses on development issues of Bangladesh. His work has been published in several pre-eminent international journals, including World Development, Development Policy Review, and Third World Quarterly. He serves as the President of the Bangladesh Development Research Center (BDRC) and has continuing engagements with various international developmental organizations.

Kara Reynolds

Professor and Department Chair, Economics

Prof. Reynolds joined the department in 2003 after completing her PhD at the University of Virginia. Her research interests include the political economy of trade protection, particularly antidumping protection, and the impact of trade liberalization on workers and firms.
